

Substance Abuse Testing

Create
a Drug Free
Workplace

The State Personnel Administration (SPA) administers the statewide substance abuse screening of applicants and State employees by acting as a liaison between the testing laboratory, the Medical Review Officer and State agencies, authorities and other entities. The program provides testing policies and procedures that meet the highest standards in testing and conform to federal and state laws and regulations.

What we can do for you

Substance Abuse Testing

What we can do for you

- Consult with state entities on drug testing issues
- Act as a liaison with Lab and Medical Review Officers
- Maintain database of drug testing results
- Provide random selection testing for state entities. (Many state positions must be in one of six pools to be tested randomly. Eleven times a year, a predetermined percentage of positions is selected from each pool for testing. Various state entities are alerted when individuals in specified positions must be tested for alcohol or other drugs.)
- Provide enterprise-wide program training
